

To whom it may concern,

Elibunny Childcare has become a part of our family. During a scary time for children, my son started at Elibunny in the thick of the pandemic in September 2020. The atmosphere they create at Elibunny allowed my son to flourish and become the social butterfly he is today. I have enjoyed watching the staff become close to my son and treat him like their own. I've also appreciated the daily updates they provide and how the staff will also work with us to focus on areas like feeding that were areas of concern for us.

The staff is friendly and joyful - creating an atmosphere of fun and learning. Overall, I'd recommend Elibunny to anyone asking and have appreciated their care and support that they've provided me and my family.

Thanks,
Monika
