Elibunny Reference Letter

4/21/22

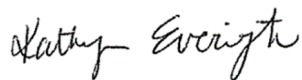

To Whom it May Concern:

Our son Ollie attended daycare at Elibunny starting at 5 months old and we were so happy with our experience, especially as first-time parents. We made the decision to bring Ollie to Elibunny based on wonderful feedback from one of my colleagues whose son was also enrolled at Elibunny. When I met with Elizabeth, all of my worries about how I would navigate sending my first born to daycare went away and I felt very comfortable and excited for Ollie to grow and thrive there.

Elizabeth has been so helpful offering advice and feedback to act as a true partner with our family. She helped us monitor how he was handling his helmet when he had to wear it for 10 weeks to correct some head flatness and she offered supportive guidance to introduce new foods to Ollie since he is a picky eater. Elibunny takes great care of the parents too! We loved getting pictures of Ollie learning and playing and having a great time with the other kids.

We would definitely recommend Elibunny to a new family seeking daycare for their child and would be happy to answer any questions future parents might have! It's a wonderful feeling knowing that your child has a second family helping to nurture and love them!

Sincerely,

A handwritten signature in cursive script that reads "Katie Everington".
